The following corrections should be made to the original paper:

During composition, the term “Scan-vs-BIM” provided in the manuscript was erroneously changed to “Scan-vs.-BIM” in the title. The correct title is “Tracking the Built Status of MEP Works: Assessing the Value of a Scan-vs-BIM System.”

The term is also erroneously listed as “Scan-versus-BIM” in the text. “Scan-vs-BIM” should have been retained in all the instances, as this refers to the name of the system being discussed.

ASCE regrets these errors.
