Call for Papers
Special Collection on Sustainable Design and Construction of Underground Pipelines

Aims & Scope
The objectives of this Special Collection are to provide a collection of timely and high-quality papers on different sustainability aspects of installation of buried pipes, utilities and culverts to gain further insights into sustainability issues for design, installation, renewal and asset management of pipelines.

Specific topics include, but are not limited to the following:

• Sustainable planning, design and construction of pipelines
• Sustainable pipe materials for open-cut and trenchless installations
• Social and environmental cost analysis of pipeline installations
• Sustainable pipeline asset management practices

Submission Details
Prospective authors are encouraged to send an abstract by Nov 1, 2020 to the Guest Editors (emails: najafi@uta.edu and vinayak.kaushal@uta.edu). The Guest Editors will contact the authors of selected abstracts to prepare full papers. All full papers will go through the regular ASCE peer review process, and only the papers accepted for publication will be included in the collection. Once selected, authors should prepare the manuscripts in accordance with the ASCE Author Guidelines available at: https://ascelibrary.org/doi/book/10.1061/9780784479018. Selected papers should be submitted through the journal's Editorial Manager website: https://www.editorialmanager.com/jrnupseng/Default.aspx

All paper types, such as, technical papers, state-of-the-art reviews, technical notes, and case studies, will be considered.

Special Collection on Sustainable Design and Construction of Underground Pipelines

Guest Editors:
Mohammad Najafi, Ph.D., P.E., F.ASCE, Professor and Director, Center for Underground Infrastructure Research & Education (CUIRE), The University of Texas at Arlington (email: najafi@uta.edu)
Vinayak Kaushal, Ph.D., PACP, M.ASCE, Assistant Professor of Instruction and Researcher, Center for Underground Infrastructure Research & Education (CUIRE), The University of Texas at Arlington (email: vinayak.kaushal@uta.edu)

Reasons to Publish with ASCE

• AUTHORITY—ASCE is the world leader in civil engineering knowledge.
• IN DEMAND—ASCE Library contains over 145,000 articles and attracts over a million visits per month.
• WIDE DISTRIBUTION—More than 3,500 institutions in 125 countries have access to ASCE journals.
• NO SUBMISSION OR PUBLICATION FEES
• EXPERTISE—ASCE journals are led by experienced researchers and practitioners attracting high-quality papers.
• COMPREHENSIVE COLLECTION—Variety of journals allows research in niche areas to be published and accessed.
• HIGH DISCOVERABILITY & ACCESSIBILITY—Content is indexed in all major services including Google, Google Scholar, Baidu, Elsevier (Ei Compendex), Clarivate Analytics (Web of Science), ProQuest, Civil Engineering Database, TRID, OCLC (WorldCat), IET/INSPEC, SCOPUS and EBSCOHost.
• OPEN ACCESS OPTION—Whether complying with funding mandates or looking for broader dissemination, authors can make their work freely available by choosing the Open Access Option.
• QUALITY—Accuracy ensured via thorough copyediting and composition processes and adherence to production best practices.
